FIU-IND has initiated a project called Project FINnet — Financial Intelligence Network — with the objective to adopt industry best practices and appropriate technology to collect, analyze and disseminate valuable financial information for combating money laundering and related crimes. However, the project is not intended to help reporting entities to find out suspicious transactions.

(b) FIU-IND was set up by the Government *vide* O.M. dated 19.11.2004 for receiving, processing, analyzing and disseminating information relation to suspect financial transactions to Intelligence and Law Enforcement Agencies. It has disseminated information in 877 cases to various intelligence and law enforcement agencies till 31.10.2007.

companies, financial institutions and intermediaries will report such suspicious transactions to the FIU-IND.
